Experience a range of unique privileges in a lively and stimulating environment.

ILLUMINATE PRODUCTIONS is a not-for-profit organisation that presents contemporary artwork in unusual, yet accessible environments. This is done by opening 'lost' buildings and identifying areas of geographical or historical importance, including interesting public outdoor spaces.

Illuminate Productions challenges established and emerging artists to work in ground-breaking contexts, so their work can be brought to a wider community and international audiences.

Illuminate Productions is a leading force in UK and international contemporary art. It has staged and managed several acclaimed public exhibitions and events. Major shows staged in recent years include **THE VISITORS** (2007), **EXIT** (2007), **CORE** (2006), and **FLUX** (2005).

Our exhibitions appeal to a wide and diverse audience as they break through the barrier of the traditional gallery space to bring the public accessible art which will engage, stimulate and excite viewers.

In response to positive feedback, we have set up a series of options for further support and to involve you directly with the progression of our work.

By becoming an Illuminate Productions **Star** or **Silver Star Patron** you will join a highly valued circle of individuals that help realise the full ambitions of artists' projects and supporting the commissioning of new works by both emerging and high-profile international artists.

By becoming a **Star Patron** or **Silver Star Patron** you contribute to the future development of Illuminate Productions' ethos of pushing the boundaries of contemporary artistic practice.

Illuminate Productions - Making art accessible to all.
